

Business Brainstorming session.

After having had many meetings with local Businesses, we have found that it is amazing how much can come from a fresh pair of eyes and ears. We all tend to get tunnel vision with our Businesses (myself included!) and we think we have tried everything or have thought of every possibility but the reality is, we most probably haven't.

The idea of the session is to bring 5 local Businesses together who have a particular area they'd like to brainstorm. This could be:-

Marketing

Growth Ideas

Change of Direction

Media

Or just to generally gain some advice on 'where to go' with their Business.

Each Business will be given 30 minutes to talk about their area specifically and the idea is for the other Business owners to come up with thoughts, suggestions or experiences that they have had to help this person. We will each take it in turns for this process until the end of the session.

Of course the likelihood is that different Businesses will want to brainstorm different things which will hopefully give you more and more ideas about different areas too!

We will be there to feed ideas and experiences back as well and to keep things running smoothly. There will be free tea, coffee and biscuits provided.
